📍 Damascus, Syria

SUMMARY

Highly skilled Frontend Developer with 1+ years of experience in building responsive and scalable web applications using Angular, HTML5, and CSS3. Proven expertise in developing single-page applications (SPAs), optimizing performance. Strong understanding of RESTful APIs, UI/UX principles, and Agile methodologies. Passionate about writing clean, maintainable code and collaborating with cross-functional teams to deliver high-quality software solutions.

EXPERIENCE

Angular Developer   06/2023 - 05/2025
Joybox ↗

- Implemented clean architecture principles with a focus on smart and dumb components, improving code readability,

  reusability, and separation of concerns.
- Integrated advanced Angular features such as lazy loading for optimized performance and reduced initial load time.
- Implemented responsive designs using Bootstrap and CSS3, ensuring compatibility across multiple devices and browsers.
- Translated UI/UX wireframes into functional, high-performance sharing dynamic frontend components.
- Assisted in building AngularJS-based web applications, contributing to increase in client satisfaction.
